Readers' Opinion

“The GENTLE MEDICINE book has arrived safely today. – This morning’s timetable is disrupted, your book is addictive and I cannot put it down. ... This is a wonderful book.”

– Francis Treuherz, internationally well-known homeopath,
UK

“GENTLE MEDICINE is, I think, the ‘bible’ of medicine, comprehensive, competent, fascinating and capturing the roots of health and illness down to the last detail. It is not only unique in content, but also precious.”

– Peter Steffen, editor-in-chief, Austria

“If only all homeopaths read GENTLE MEDICINE seriously, what a difference it could make to homeopathic practice!

GENTLE MEDICINE is a book any serious homeopath will appreciate; a treasure trove of information, worthy of being on our bookshelves and of being read, not just once, but time and again, like our **Organon**. I whole-heartedly recommend this book. Dr Grätz, thank you, for writing this amazing book which will inspire homeopaths and other health practitioners, for generations.”

– Dr. Firuzi Mehta, Mumbai, India

“GENTLE MEDICINE is excitingly written and contains a wealth of valuable information from which even the experienced homeopathic doctor can still learn. The examples show that most chronic diseases are caused by suppression and vaccination damage and that a properly applied homeopathy can often still help even in seemingly hopeless cases.”

– Dr. Karl-Heinz Gebhardt, German Central Association of Homeopathic Physicians

“This book should be widely distributed, because the topics it deals with and the proposed solutions are especially needed in our time.”

– Anita Petek, editor-in-chief, AEGIS Impuls, Switzerland

“A new dimension in medicine! The book of Dr. Grätz is a guide to a future of gentle medicine. It should be compulsory reading for every medical student and every practicing doctor.”

– Anne Devillard, editor-in-chief, Natur & Heilen, Munich

– Lars-Ulrich S., freelance journalist, Berlin

“This is one of the longest, most intense and rewarding books I have ever read. It should be read and studied by all: students and teachers, newly qualified and veteran homeopaths alike.”

– Francis Treuherz, internationally well-known homeopath and author, UK

“I have been reading your GENTLE MEDICINE. It’s fascinating and beautifully written.”

– Wenda O’Reilly, UK, translator of the 6th edition of Hahnemann’s Organon

“This book is 573 pages and is VERY reasonably priced at \$34.99. - You get a LOT of good information for your money here!”

– Dana Ullman, MPH and author, USA

“Your book is so interesting. I thoroughly enjoyed reading it. It now has pride of place on the office bookshelf 😊.”

“... also some Spanish homeopaths are interested in your work, they say your book is the most complete book they have ever read.”

– Miguel Sáez, Spain

“I purchased your book and have massively enjoyed reading it. The sections on miasms, vaccinations and epilepsy all made perfect sense to me. Also I like how you have added GNM and I can see how the principles work so nicely with homeopathy.

I just wish I could find another homeopath who understood LM potencies and how to select the correct anti-miasmatic remedy for chronic treatment. I am even more committed to work with a homeopath now after reading your book. It’s really great.”

– Daniel Murray, England

“I thoroughly enjoyed your book. ... I have been reading homeopathy books for many years now and have been prescribing medicines too. But your approach towards medicine and disease is pretty unique even for the homeopathic community. ... Thanks for the great book.”

– Dr Gurucharan, India

“This is not just another book on medicine. It is a MUST read book for practitioners of all systems of medicine with factual compulsive reports of authenticity that throws light

on the invasion of reckless science and technology in the practice of medicine and it's obnoxious implications for humanity and how the patients and people become an adage to such science and technology often leading to forfeiture of individual freedom to say 'Yes' or 'No' and how conscientious physician too can become a victim to this nefarious system of science and technology in the domain of medicine.

In the background of present pandemic of COVID 19 and the accompanying fear psychosis and release of mass vaccination program, without adequate safety profiling, without any indemnification for adverse effects and loss of lives and the mode of trial and error experimentation of pushing every antiviral drug as a sort of knee jerk reaction and to the denial of decent and respectful homage to several lost lives, all in the fear of spread of the pandemic to denial of entry into shopping malls, buses and trains without any vax certificate and curbing the freedom of movement of people, reading of this book is a MUST for every human being of the world, ponder over it deeply and arrive at a conscientious decision making and needful action thereof.

I think it is time to say goodbye and 'NO' to dirty sleaze, economics and politics of everything."

– Dr. V. Subramanian, homeopath, India, via Facebook
